|  | Loans to households for house purchase with an initial rate fixation over five years and up to and including ten years | 4.78 | 5.02 | 5.02 |

Source: ECB M FI interest rate statistics.

MFI interest rates on new business: The rate on overnight deposits from non-financial corporations increased by 7 basis points to $0.95 \%$ in January 2004. The rate on deposits from households redeemable at up to and including three months' notice remained broadly unchanged at $2.02 \%$ in January. The rate on deposits from households with an agreed maturity up to and including one year increased by 2 basis points to I.91\% in January.

The rate on bank overdrafts of households increased by 20 basis points to $9.89 \%$ in January. In the case of loans up to and including EUR I million to non-financial corporations at floating rate or up to and including I year initial rate fixation, the rate increased by 2 basis points to $4.06 \%$. In contrast, the rate on loans over EUR I million to non-financial corporations with the same initial rate fixation decreased by II basis points to $3.01 \%$ in January. For longer-term loans, the rate on loans to nonfinancial corporations over EUR I million with over 5 years' initial rate fixation decreased by 3 basis points to $4.29 \%$ in January. For households, the rate on loans for house purchase with over five and up to and including 10 years' initial rate fixation remained unchanged at $5.02 \%$ in January.

MFI interest rates on outstanding amounts: The average interest rate paid on outstanding amounts of deposits from households with an agreed maturity up to 2 years' fixation decreased by 3 basis points to $1.94 \%$ in January 2004. The average interest rate paid on outstanding amounts of deposits from non-financial corporations with an agreed maturity up to 2 years decreased by 6 basis points to $2.09 \%$ in January.

The average interest rate charged on outstanding amounts of loans to households for house purchases with over 5 years maturity declined by 3 basis points to $5.11 \%$ in January. Interest rates on outstanding amounts of loans to non-financial corporations over 5 years maturity decreased by 9 basis points to 4.57\% in January.

Weighting method: The new business interest rates of individual agreements are weighted by the size of the agreements and therefore reflect the actual remuneration of new deposits taken up or the actual cost of new loans taken up. Changes in the euro area interest rate average may therefore also reflect changes in the weights in addition to changes in the actual interest rates.

## Notes

- New business refers to any new agreement between the customer and the M FI, while outstanding amounts refer to the stock of all deposits and all loans at a specific moment in time. Three instrument categories - overnight deposits, bank overdrafts and deposits redeemable at notice - form a separate group for which interest rates on new business and on outstanding amounts coincide.
- M ore detailed information on M FI interest rate statistics is available on the "Euro area MFI interest rate statistics" page in the "Statistics" section of the ECB's website (http://www.ecb.int).
- The corresponding business volumes for each of the MFI interest rate categories are shown in Tables 2 and 4 of the Annex.
